

# GUARDIAN XP™

## CAR WASH PAY STATION

Standard Change-Makers' **GUARDIAN XP** Car Wash Controller is designed to help car wash owners maximize their revenue in automatic washes. The GUARDIAN XP was specifically designed to help generate new business and loyalty at your car wash with several marketing and promotional features, such as coupon acceptance, ad/mailer discount code entry, and custom token acceptance.

With the GUARDIAN XP, owners can easily promote their carwash location in a variety of ways using programmable incentives. Tracking the effectiveness of promotions is a snap using a PIN-based code on the keypad to "quick print" a summary report.

Special discount promotions are built-in to the programming features of the Guardian XP. Owners can provide user-friendly interface for credit card acceptance with the optional credit card acceptance package to help generate additional revenue. The GUARDIAN XP offers flexibility without cumbersome back-end computer system controls.

### The **GUARDIAN XP** features:

- ▶ Secure Stainless Steel Cabinet with two (2) crank locks, Medeco™ lock plugs, no visible hinges & LED Accent Lights
- ▶ Clean & Efficient internal design for Quick & Easy Service!
- ▶ (1) CPI® T7 Talos Bill Validator with 500 bill stacker box.
- ▶ (1) Standard Modular Series *Smart* Hopper - holds 2,000 Tokens
- ▶ (1) **Electronic Coin Acceptor** - will accept \$1 Coins, Quarters and one (1) different token
- ▶ (4) Programmable Wash Selections - **durable metal selection buttons** also assist the owner with external programming inputs and diagnostic feedback inputs
- ▶ **Metal push button keypad** for special "code entry" discount programs used in conjunction with coupons, mailers, and advertisements
- ▶ Simple, reliable & flexible interface to all popular automatic wash equipment
- ▶ Cabinet can fit inside existing, older AWC's - no need to rebuild or repair existing masonry or security structures!

### Some **GUARDIAN XP** OPTIONAL FEATURES: (Purchase with the machine or for easy field upgrades)

- ◆ **Bonus Token Dispense** - with an additional *Smart* Hopper - sized to your Token
- ◆ **Credit Card Acceptance Kit** - includes weather-proof, **bi-directional** card reader with dial-up processing (or hi-speed processing available via IPTran as an optional feature)
- ◆ **Receipt & Audit Printer** - available for cash and credit card transactions. Also allows the owner use of the "quick print" diagnostic and audit report feature
- ◆ **Auto Dialer** - will send message to pager or cell phone for up to 8 error conditions at your wash
- ◆ **Customizable Voice Prompts & Speaker** - Auditory enhancement that prompts customers with instructions that are on the screen, and provides voice feedback of selections
- ◆ **POS Pat-At-Pump Code Interface** - works with POS Codes for C-Stores or Petroleum Stations
- ◆ **Stainless Steel Base** - 20" or 26" High Straight design for free standing installations

**DIMENSIONS:** 26.25"H x 20.50"W x 13.00"D

3130 N. Mitthoeffer Road Indianapolis, IN 46235

**1-800-968-6955**

**www.standardchange.com**

**Large LCD Display** displays instructions and feedback to the customers. The display is specifically designed for high visibility in sunlight.

**Receipt & Audit Printer** is a thermal paper receipt printer with a high capacity paper roll bracket. Works with "Quick Print" feature to provide audit information on revenues and promotion feedback.

**CPi™ (Mars) Bill Validator** (with 500 bill stacker) will accept \$1 - \$20 bills. **Coinco® Vantage** available as an optional feature and in Canada.

**IDX® X-12 High Security Coin Acceptor** will accept quarters & dollar coins, plus up to four (4) different security tokens. Tokens can be used for various wash levels or promotions.

**Bi-Directional, Weatherproof Card Reader** reads the mag stripe from either direction, and is angle mounted to allow coins to fall out when inadvertently inserted. (Credit Card Acceptance Optional)

**Durable Metal Keypad**

Keypad can be used for promotional code entry, PIN entry, and "Quick Print" feature. Will also allow you to program instructions and greetings via "text messaging" entry process.

**Secure Stainless Steel Coin Cup** design is intended to provide comfortable removal of coins or tokens and to prevent rain from getting into the interior of the cabinet.

**Metal Selection Buttons** allow customers to choose from four (4) different wash levels. Buttons have LED light for added attention! Also used for programming functions without opening machine. Four upsell buttons are available (optional).

**The GUARDIAN XP will help you promote your car wash location with these special options and features:**

**EF-III Pay Station Control Board** is the Command Center for the GUARDIAN XP. Our design engineers built this unit with the goal of easy access and being able to replace this, and any component, in no more than 10-15 minutes.

**Programmable Logic Controller** for interfacing with your automatic wash bay equipment.

**Heating Element** will keep cabinet warm in cold weather conditions, and help keep ice off the Pay Station door.

- ▶ POS-4000 Pay-At-Pump Code interface (optional)
- ▶ Up to 19 Code Based Discounts (Coupons, Ads, & Direct Mailers)
- ▶ Time-of-Day & Day-of-Week Discounts (Promote via Ads & Mailers, Load Balancing)
- ▶ Non-Value Coupon Acceptance (Mailers) (requires MEI Validators and specific printing parameters)
- ▶ Security Tokens (Charities, Loyalty, Complaints)
- ▶ Credit Card Acceptance (Datacap Systems IPTran LT, Nayax, Cryptopay)
- ▶ Dispense a "bonus token" with your change - can offer a free vacuum start or discount on future washes
- ▶ Open & Fully-Integrated Third-Party Card System interfaces (SitePRO+)
