MC720-DA

The Best Technology & Construction in a Low-Cost Solution

Standard Change-Makers presents the MC700 Series Change Machines, a high security, low-cost changer solution. The MC700 Series combines Standard's heavy-duty cabinet design and component construction with our Modular Series *Smart Hopper* technology. All this in a simple-function, low cost solution!

The heavy-gauge steel and Marlboro hinges provide added security for coin laundries, car washes and other businesses concerned about their investment. Further, the MC720-DA has our exclusive **Dual Redundancy** feature - that provides built-in back-up because both bill acceptors communicate with both coin hoppers!

- **MDB Serial Interface** provides more accurate communication between Hopper(s) & Bill Acceptor(s)
- **Heavy-Duty Construction** provides security with two locks in a solid-welded, front load cabinet configuration
- **Multiple Configurations within same Cabinet design** allows design versatility to meet your business' needs
- **Flash Code Error Display** - allows to you to troubleshoot problems quickly
- **Motor Driven Hopper** - direct drive of the Primary Disk, no need for belts or chains!

For more information about the Modular Series Changer, contact your nearest Standard Change-Makers Distributor
